Commonly Used Abbreviations

RNA = ribonucleic acid

DNA = deoxyribonucleic acid

bp = base pair(s)

Mb = Megabases

dNTP = deoxynucleoside triphosphate

ddNTP = dideoxynucleoside triphosphate

PCR = Polymerase chain reaction

cM = centiMorgans

dsDNA = double-stranded DNA

dsRNA = double-stranded RNA

ssDNA = single-stranded DNA

ssRNA = single-stranded RNA

gDNA = genomic DNA

cDNA = complementary DNA

mRNA = messenger RNA

tRNA = transfer RNA

rRNA = ribosomal RNA

IncRNA or lincRNA = long non-coding RNA or long intergenic non-coding RNA

LINEs = long interspersed elements

SINEs = short interspersed elements

WBCs = white blood cells

GMO = genetically modified organism

CRISPR = Clustered regularly interspaced short palindromic repeats

RNAi = RNA interference

LDL = Low-Density Lipoprotein

HDL = High-Density Lipoprotein

FH = Familial Hypercholesterolemia

LDLR = Low-Density Lipoprotein Receptor
